WORK EXPERIENCE

City: Islamabad | **Country**: Pakistan

[18/10/2023 – Current]

Political Researcher & Columnist

Published eight analytical columns across national policy and research outlets, examining systemic governance failures in technology, security, and policy domains. Research centers on how modern institutions and algorithmic systems undermine accountability and strengthen centralized control.

Institute of Regional Studies (IRS), Islamabad <https://www.irs.org.pk/index.php>

Youth and Volunteer

Delivered environmental awareness campaigns, emergency preparedness education, first aid training, and community outreach initiatives for vulnerable communities across Islamabad.

PROJECTS

[05/12/2025]

COMPAS Algorithmic Bias Audit

Audited ProPublica's Broward County COMPAS recidivism dataset using Python libraries including pandas and matplotlib with groupby computation. Computed a 21.3% racial disparity in false positive rates, indicating that algorithmic risk tools require independent audit and human oversight prior to courtroom deployment.
